Chief Executive Officer - Titusville Area Hospital  
V.P. of Systems Integration - Meadville Medical Center

June 20, 2023

Dear Sen. Hutchinson,

As CEO of Titusville Area Hospital, which employs several of the nursing graduates from the University of Pittsburgh at Titusville's Education and Training Hub, I see every day how the Hub helps to strengthen and advance the Titusville community and the state.

There are many ways the Hub adds value to our community, including:

- Making a statewide economic impact of around \$9.1 million annually.
- Paying \$355,082 in state and local tax revenues annually.
- Sustaining and supporting 98 jobs.
- Educating 50 students, all of whom call Pennsylvania home.
- Fueling the local workforce by graduating well-prepared students, most of whom remain in Crawford, Venango, Warren and Erie counties to advance our state's economy.
- Providing a seamless educational path to prepare badly needed nursing students to tend to the health care needs of the community.
- Offering basic and advanced machining certification classes for little or no cost to train machinists and help strengthen the workforce of regional manufacturers.
- Developing a medical assistant certification program to train clinical medical assistants and phlebotomists in the region.
- Providing an educational setting where traditional and nontraditional students from the region can earn an associate degree.

I am grateful that the Hub continues to make a positive impact on our region and help advance the important work of strengthening Pennsylvania's families, economies and future.

Respectfully,

Lee M. Clinton, FACHE  
CEO, Titusville Area Hospital
